Terms & Conditions

Customers that provide their own parts are responsible for ensuring compatibility. Please note an extra charge will apply if any software or hardware that a customer supplies is incompatible. New hardware & software must be new and supplied with the original box or packaging sealed. All software must be legitimate with original serial numbers - For legal reasons copies will not be used (don't ask as refusal often offends)! Cost of any initial work is redeemable against any extra work taken out on the PC. (Rates are valid on day of inspection).

*The computer must be a PC& a legitimate Windows 7, Windows 8.1 or Windows 10 Operating System must be in use or provided.

1.   All Hardware installations/upgrades come with a 30-day warranty on the work carried out. If the work is deemed to be unsatisfactory & faulty, I will undertake to correct the problem, at no additional charge.

2.   Although this is NOT a data recovery service & it is assumed that you have backed up or made copies of any important files or data (pictures, music, documents etc), Assistance can be provided with data recovery if required.

3.   Invoices issued are for immediate payment. Cash or Cheques, secure online via debit card, credit card, or PayPal. (Sterling, Euro, BitCoin, Bacs & 'Paym' mobile payments are also accepted).

Calls to 07859 837785 may be recorded or monitored for reference or quality purposes. Please be aware that this service is subject to availability. Bespoke options are based on specific needs & requirements. Support is provided to users in the order in which they request it. We don't employ annoying answering machines or voice-mail.

(Please Refer to Website for Full Terms & Conditions).

Training and Tuition

If you have a problem with your PC, need to get connected on the internet or have an issue you want resolved quickly, It could be fixed for you at a very low cost.

Don't pay shop prices or get ripped off when you could get your PC running like a new machine again at a much cheaper price.

With a complete reformat and reinstall of your operating system your machine is also configured for optimum performance! You can pay cash upon completion or pay securely using any debit/credit card or PayPal!

Inexpensive Upgrades, tune ups, repairs and honest free advice can be given, No job is too small so don't hesitate to **call PC technician Mike on**

07859 837785

Should your machine require parts / upgrade, hard drive, or additional memory, I can advise and supply and fit these (If required) at a minimal additional component cost.

PC Health check Your computer may not be running as smoothly as it should. A PC health check can help tune up your system to increase its performance.

Memory Install
Don't go putting the wrong type of memory in your computer - I check which type it needs, install it for you and make sure it's all working. And, buy the memory from me at the cheapest available price and I do it for £9.99.

Upgrade Installation
Let me fit all your upgrades into your computer. I install the software for the upgrades and fully test it to make sure its working right. If you buy the upgrade from me I do it for £19.99.

Wireless Install
Get it done right, your network can be set up for you. I make sure it's secure so nobody else can get at your files or internet connection, I set up broadband and you can get Wi-Fi all around your home!

Online Security and Identity protection Staying secure online is extremely important. Without taking a few simple precautions, you're leaving your computer open to prying eyes. Installation Service: I can configure your antivirus and anti malware on your PC, without you needing to set foot outside your door. Installation, configuration and updating of the software is undertaken to ensure your PC is safe from viruses and your identity protected.

General Peripheral Installations
Have you just bought a new all singing all dancing PC or gadget and can't get it to work? Why not let me do it for you and save you the hassle. I can get you connected to the internet easily.

One on One Training   Even if you've never used a PC before, one to one training can be provided, and of course free advice is given too. Every basic (or intermediate) aspect of computer use is explained in simple practical terms at your own pace, and regular hands on tuition can be provided at a seriously modest cost.

Maintenance A Visit can be made every three months if desired. Ensure that your PC is running correctly and that no deterioration in performance is apparent. Corrections and advice can be made and given as necessary.
